

Problem–Solution fit canvas 2.0

Purpose / Vision: Empower data-driven decisions for better agricultural planning and productivity.

Define CS, fit into CC	1. CUSTOMER SEGMENT(S) CS Who is your customer? - Government officials & policy makers - Agricultural researchers & analysts - Farmers & Farmer associations - NGOs & development organizations - Students & academicians - Agri-businesses & stakeholders	6. CUSTOMER CONSTRAINTS CC What constraints prevent your customers from taking action or limit their choices of solutions? - Limited access to timely and accurate data - Lack of data analysis skills - Budget limitations for advanced tools - Poor internet connectivity in rural areas - Limited awareness of data-driven tools - Time constraints for data analysis	5. AVAILABLE SOLUTIONS AS Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? - Government reports & publications (Pros: official, reliable; Cons: not real-time, hard to analyze) - Excel sheets (Pros: widely used; Cons: time-consuming, error-prone) - Other dashboards & websites (Pros: visual; Cons: limited filters, less customization) - Manual records (Pros: simple; Cons: outdated, not scalable)	Explore AS, differentiate
	2. JOBS-TO-BE-DONE / PROBLEMS J&P Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides. - Analyze crop production trends over years - Compare production across states, districts, crops & seasons - Identify top producing crops, states & districts - Support data-driven planning & policy making - Monitor agricultural performance & changes over time	9. PROBLEM ROOT CAUSE RC What is the real reason that this problem exists? What is the back story behind the need to do this job? - Data is scattered across multiple sources and formats - Lack of real-time, interactive, consolidated view - Manual analysis is slow and inefficient - Increasing need for quick insights for planning and decision making - Growing demand for transparency and accountability in agriculture sector	7. BEHAVIOUR BE What does your customer do to address the problem and get the job done? - Search for agricultural data online - Download reports and analyze manually - Use Excel to create charts and summaries - Attend meetings, seminars, discussions - Consult experts or colleagues for insights - Spend time on social media & forums for updates	
Identify strong TR & EM	3. TRIGGERS TR What triggers customers to act? - New government policies or announcements - Changes in crop production or market trends - Need for seasonal planning and budgeting - Academic research or project requirements - Increasing climate change impacts	10. YOUR SOLUTION SL If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour. Our Solution: An interactive Tableau Dashboard for Agricultural Crop Production (1997–2021) that provides: - Real-time filtering by State, District, Crop, Season, Year - Visualizations: Production, Area, Yield, Trends - Comparative analysis across regions and time - Easy-to-use interface for all user types - Export and sharing of insights and reports	8. CHANNELS of BEHAVIOUR CH 8.1 ONLINE - Government websites, data portals - Search engines, research papers - Social media, forums, online communities - Emails, newsletters, online reports 8.2 OFFLINE - Meetings, workshops, seminars - Printed reports, journals, documents - Field visits, surveys, discussions - Agriculture offices, institutions	Extract online & offline CH of BE
	4. EMOTIONS: BEFORE / AFTER EM How do customers feel when they face a problem or a job and afterwards? - Before: Confused, time-consuming, uncertain, frustrated - After: Informed, confident, efficient, satisfied
