

Project Design Phase-II

Data Flow Diagram & User Stories

Date	29 June 2026
Team ID	
Project Name	India's Agricultural Crop Production Analysis
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Flow – Agricultural Crop Production Dashboard

1. User opens the Agricultural Crop Production Dashboard and selects the required filters (State, District, Crop, Season, Year).
2. Data is loaded from the dataset (1997-2021) and preprocessed & transformed for analysis.
3. Data is aggregated to calculate total production, average production, and other key metrics.
4. Processed data is analyzed by the analytics engine in the cloud to generate insights.
5. Insights and visualizations are displayed on the dashboard and can be exported as reports (PDF / Excel).

User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Dashboard Access	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	Dashboard opens successfully.	High	Sprint-1
Customer		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
Customer		USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with Facebook Login	Low	Sprint-2
Customer		USN-4	As a user, I can register for the application through Gmail		Medium	Sprint-1
	Login	USN-5	As a user, I can log into the application by entering email & password		High	Sprint-1
	Dashboard					
Customer (Web user)	Story Analysis	USN-6	As a user, I can view Tableau Story insights for better understanding.	Story pages display correctly.	Medium	Sprint-2
Customer Care Executive	Data Management	USN-7	As an administrator, I can update the agricultural dataset.	Updated data is reflected in the dashboard.	High	Sprint-2
Administrator	Report Sharing	USN-8	As an administrator, I can export dashboard reports.	Reports are downloaded successfully.	Medium	Sprint-2
