

Ideation Phase
Define the Problem Statements

Date	28 June 2026
Team ID	
Project Name	India's Agricultural Crop Production Analysis
Maximum Marks	2 Marks

Customer Problem Statement Template:

Customer: Farmers, agricultural researchers, and policymakers.

Problem: They find it difficult to analyze and compare crop production data across different states, districts, seasons, and crops.

Need: An interactive dashboard that presents agricultural data in a simple, visual, and easy-to-understand format.

Solution: A Tableau-based Agricultural Crop Production Dashboard that helps users explore trends, compare performance, and make informed decisions.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Problem Statement (PS)	I am (Customer)	I’m trying to	But	Because	Which makes me feel
PS-1	Farmer	Analyze crop production trends.	Agricultural data is difficult to understand.	Data is scattered and lacks visual representation	Confused and uncertain about decisions.
PS-2	Agricultural Researcher.	Compare crop production across states, districts, and seasons.	Manual analysis is time-consuming.	Large datasets are not presented interactively.	Frustrated and unable to make quick decisions
